

The reference ink for digital sublimation printing dedicated to DX4, DX5 and DX7 Epson printheads

PRODUCT DESCRIPTION

- Specially formulated to provide extended run-ability with minimal maintenance and maximum uptime
- Provides better ink yield resulting in high density images with lower ink consumption
- Dries quickly to improve color uniformity and reduce waste
- Operates at high-speed print modes without sacrificing color fidelity
- High yield transfer rates with all commercially available transfer papers
- Oeko-Tex 100, RoHS and CPSIA compliant
- Manufactured free of hazardous air pollutants (HAPs) & toxic air pollutants (TAPs)
- Aqueous ink formulated without VOCs for a safer work environment

AATCC / ISO RESULTS

	Light Fastness	Water Fastness	Alkali Perp. Fastness
Cyan	5/6	4/5	4/5
Magenta	6/7	4/5	5
Yellow	6/7	4/5	4/5
